

SPIRITUAL PATHS

THE SEEKER
PROGRAM

This will be the adventure you never knew you needed, but it will change your life from the comfort of your home.

It's a training full of learning, connections and life-transforming experiences.

We will learn techniques left by our Ancestors that have very deep roots in shamanism, one of the oldest spiritual practices in the world.

With a cross-cultural approach that combines elements of different shamanic traditions around the world, especially North American and Amazonian influence.

It is an approach that is based on the belief in the interconnectedness of all beings, respect for nature, the use of healing rituals, communication with spirits and the search for wisdom through the spiritual journey. Shamanism practitioners can explore a variety of techniques and practices, adapting them to contemporary needs and contexts.

It won't fix life, but it might help you heal and balance what keeps you from having a full one.

Above all, this training was built to empower you! To give you spiritual autonomy.

WHY THIS? WHY NOW?

The awakening is happening.

More and more, people are noticing the invisible realms, the increasing of energy, the fast movement and evolution. This normally starts with chaos and crisis (mental, emotional, physical, in relationships or in the environment).

What is true, is that change is upon us.

The necessity for it, it's clear.

This training will teach you about energy, spirit, the invisible realms and how it intertwines with you, your life, your relationships and your soul purpose. But it will also give you much more. It provides a path of self discovery and understanding. A possibility out of doubt into curiosity. A possibility of understanding the big picture and your part in it.

This training is about a calling from your soul. A request to not conform with normality. An invitation of a life change, into power, clarity, responsibility belonging and untapped potential to co-create life in different ways. A possibility to face fear, dissolve blockages and tap into the abundance of life.

If you want or need change and growth beyond what self-help, and occidental medicine and culture has given you...

STOP DENYING YOUR TRUTH!

I know you feel too big for who
and what is around you
and at the same time,
you are also afraid to answer to
what is calling. Afraid to be
rejected, misunderstood or even
judged.
